Hey,

I'm hoping to get an update on Bayou Corne, specifically, the flaring of gas from the aquifers. The Advocate story on the "Gas Burn-off Duration Increases...." has stirred the interests of the people here. If I could get a short update, it would be appreciated.

And I'm also checking to see if there is anything that we need to do to support you. We've still have the tasking open for our START contractor Weston.

Thanks
